THE LARGEST COLLECTION OF TRUE-TO-NATURE DECORS

Maestro offers a total solution for the decoration of your space. Next to the **wall-and ceiling panels** you will find matching and easy to install profiles in each collection : **skirtings, ceiling mouldings, flexible mouldings**, and other accessories.

TECH SPECS

- A basis of MDF covered with a high quality foil.
- Also available with moistureproof MDF and a special backing. 💧
- Tongue and groove system makes blind fastening possible.
- The subtle groove on the long and the short sides creates a stylish effect.

Professional or do-it-yourselfer. Thanks to the unique tongue and groove system, Maestro panels are very easy to install by yourself. Removing the covering later on? That too is done in no time

YOUR DEALER:

GET INSPIRED

5 MOODS

Discover our five original styles that lend you a helping hand, and light your imagination to create an interior that matches what you have in mind perfectly.

CALM

Interiors inspired by Calm are permeated with a calm mellowness that derives from living in harmony with nature. Natural materials full of texture have a high wabi-sabi quality: inspired by far-off Japan, they illustrate the beauty of imperfection.

NOBLE

Elegant simplicity is the essence of Noble: combining opulent marble and gold with white and light woods. Although interiors inspired by this mood are fairly austere and sleek, there is a certain softness in the colours and materials used.

ECLECTIC

Enjoy an interior full of personality. Romantic interiors evoke mystery without divulging their secrets right away. Eclectic furnishes spaces in layers that have to be discovered one by one. Dark colours and unique objects provide a hint of cosiness and nostalgia. The style combines old materials and crafts with new technology.

WARM

Tasteful, artistically decorated rooms full of natural materials with a retro-modern touch create a sensual warmth. Objects in these interiors have the flair of traditional handmade crafts. The cultural influences of Latin America provide a particularly warm colour palette centred around nature and earth tones.

CRISP

With playful shapes and clean lines, Crisp represents a special urban feel. Soft pastels and striking accents elevate the Scandinavian look to the next level. The Crisp philosophy is all about the fresh, surprising and now: contemporary innovations combined with a feminine aesthetic.
