## FOR TODAY AND THE FUTURE

We proudly present to you the new Maestro collection. Using five moods - Noble, Crisp, Calm, Eclectic and Warm - as our springboard, we developed an attractive collection that not only follows, but sets trends.

These five moods, five interior styles - put together by a creative team of trend watchers and colour experts - make sure that you have all the tools you need to design your own home. Affordable and oozing feeling, due to all-natural materials and an extensive selection: that's our way of providing you with inspiration and helping you to cultivate your own style. That includes a choice of inviting accent walls and ceilings! Put your personality in the spotlight by enjoying the tremendous selection and ease of installation. Get inspired and create your own dream spot.

The new collection includes dozens of new designs that are unique in their own way. Colour, shape or technical ingenuity: the five moods are interspersed with firsts and based on the trends of today and the future.

# TRENDS

## RICHER, WARMER AND MORE NATURAL

### INSPIRATION AND TRENDS FOR THE INTERIOR OF TOMORROW

Softer, curvier, more joyful. That's right, the latest interior design trends are cosy and cheerful. Warm and rich materials make an appearance at your home with panache. The right colours create an intimate glow, with a nod to nature.

### PERFECTION IS A THING OF THE PAST

Whether you opt for a bare-bones interior with raw and industrial influences, a nonchalant bohemian style with a funky gypsy twist or a luxurious showy interior: perfection is no longer a must. As a result, the potential sources of inspiration are nearly limitless! From natural colours, like terracotta, to jeans blue. From ancient Greece to the pagodas of the Far East. Indeed, striking colour combinations - think earth tones tinged green or brass details - are totally in. Need more colour? Not a problem. Purple tones and pink in all its shades are making their appearance. The days of pink being only for girls are finally over.

### YOU OWN STYLE CREATES A SENSE OF INTIMACY

Whatever mood you opt for, always be aware that soft materials and textiles provide warmth and cosiness in any interior: Downy velvet, fur or eye-catching fabrics with ethnic prints are gaining ground. And that's whether or not in combination with natural brown or rust tones, darker species of wood such as oak or walnut and a touch of glamour thanks to matte black, gold or dark marble.

### AN INTERIOR MADE TO MATCH

An interior is always a personal thing, as it should be! It's that personal taste that emphasises your personality and gives character to your home, which is why Maestro developed five unique moods: five original styles that lend you a helping hand, and light your imagination to create an interior that matches what you have in mind perfectly.

Do you prefer lighter hues and wood types for a classic look or a trim, incredibly modern interior? Complemented with lavish materials and accents,

**Noble** creates a luxurious feel. Or maybe you prefer pastels that make for instant happiness.

**Crisp** combines playful shapes and clean lines for a phenomenal urban feel. At the heart of **Calm** are pale colours and natural wood, peace and a sense of harmony. Perfection lurks within the texture of materials and the imperfections of surfaces. Or you could enjoy an interior full of intimacy and personality. In **Eclectic**, you mix and match old with new for an interior full of surprise. Finally, **Warm** helps you to drift off into the cultural influences of Latin America and unique crafts: a traditional approach to evoke a sensual environment.

warm

noble

crisp

Eclectic

calm

# NOBLE

## TIMELESS

## ELEGANCE

**THE POWER OF  
SIMPLICITY AND LAVISH MATERIALS**

Elegant simplicity is the essence of Noble: combining opulent marble and gold with white and light woods. Although interiors inspired by this mood are fairly sober and sleek, there is a certain softness in the colours and materials used.

# LESS IS MORE

**T**imeless and versatile. With a warm, white interior you decide for purity and elegance. Thanks to a warm shade of white - think of Crystal White, White Ash or Silver Chestnut - you create a stylish canvas where light, space and calm hold sway. An added advantage: due to the many gradations of white, a cosy interior is created where mood is created effortlessly, using light woods, surprising accessories and lavish materials.

↑ White Ash

## ADD YOUR OWN PERSONAL TOUCH

Isn't white a little unimaginative? It can be, but it doesn't have to. In a pale, light-filled living room you can easily add a splash of colour and cosiness with an engaging accent wall, appealing design furniture or an ornament that draws the eye. In this way, you combine the best of both worlds: the peace and simplicity of the soft, white whole, with the vibrancy of contemporary colours or materials.

# STORIES

## THE ICING ON THE CAKE

**A** new house, a fresh start. For Wim (52) and his family, that's exactly what their story is. For months, he was busy renovating their new home into a spacious, modern family home. Only the finishing touch was still missing. That is, until two accent walls in a stylish marble look appeared on the scene.

↓ Black Marble

**maestro**  
PANEL

“

I AM SURPRISED BY THE IMPACT  
THE ACCENT WALLS HAVE. THE MARBLE IS  
INCREDIBLY REALISTIC AND FEELS THAT WAY, TOO.

”

Before

It features uniform lines, natural accents and warm materials. The former butcher's spacious living area is bathed in light. Wim did quite a bit himself, not only DIY jobs but also the interior decorating. "My preference is for minimalism and clean lines, but there was a lack of character in the kitchen and the living space." Enter Maestro's accent walls. The white marble keeps the kitchen sleek and stylish and is the perfect match for the philosophy behind Noble. The black marble in the living area adds a sense of ambience and a homely feel. The texture and dark accents take their inspiration from the Calm mood.

↓ White Marble

**A WARM CONTRAST**

For Wim, daughter Lisa and Gilbert the dog, the new interior makes for a wonderful place to live and call home. "I am especially surprised by the impact of the decorative panels. In contrast to the bare, white walls, they provide a natural touch that creates tremendous added value.

The marble is incredibly realistic and feels that way, too. It's exactly what I was looking for."

The fact that Wim installed the accent wall and its panels with his own hands is an additional something special. "I'll be the first to admit it: I am not a professional. Still, I do enjoy sticking my hands in. Even as an amateur, the installation went surprisingly quickly and without any hitches. In no time at all, the kitchen and the living room were conferred a completely new look."

# 4 TIPS FROM OUR PROFES- SIONAL

**W**hether as a DIY amateur or as a professional: the Maestro wall and ceiling panels are extremely easy to install. Even on your own. With these tips, you become the professional in your new build or renovation.

“

**MAESTRO WALL AND CEILING PANELS  
ARE EXCEPTIONALLY EASY TO INSTALL.  
ALSO ON YOUR OWN.**

”

**GCV HUBERT SIGIEZ,**  
Carpentry & joinery Zandvoorde

## **1 ALLOW FOR AN EXPANSION JOINT**

Maestro's wall and ceiling panels are mainly made of wood, and wood is a living thing. It's for that reason that you ought to initially allow a new pack of panels to acclimatise to their new space for 24 hours and keep sufficient space for an expansion joint on the sides of your wall or ceiling during installation.

## **2 CREATE AN ASSEMBLY PLAN**

Come up with an assembly plan in advance to avoid waste and to optimise the use of your panels. Before installation, measure your wall or ceiling and divide the planks over the width. That way you will be sure of the best possible result.

## **3 MIX THE PANELS**

When installing the panels, pick and choose a selection from different packs. This will help you to achieve a natural look and alternating design themes. One option is to lay the panels on the ground first to arrange them in the most attractive combination.

## **4 FINISH THE LOOK WITH ACCESSORIES**

Ceiling mouldings, flexible mouldings or custom skirting: with the right Maestro accessories, you can add a unique accent to your partition or wall.

# CRISP

## NEOSCANDI

### THE NEW SCANDINAVIA

With playful shapes and clean lines, Crisp represents a special urban feel. Soft pastels and striking accents elevate the Scandinavian look to the next level. The Crisp philosophy is all about the fresh, surprising and now: contemporary innovations combined with a feminine aesthetic.

# THE NEW COLOUR OF THE NORTH

“

**LIKE GOOD WINE, NORDIC DESIGN  
JUST KEEPS GETTING BETTER**

”

**C**oming home after a walk through stormy weather to a light-filled house with warm materials and bright details: the new Scandinavian style will thaw every fan of interior design in no time. Airy, playful and close to nature: could this be something for you?

It's not just the herbed köttbullar, Stieg Larsson's blood-curdling thrillers and the pumping beats of Avicii that have got us completely under their spell. Scandinavian interior design can also be found everywhere you go. Just like a good wine, Nordic design just keeps getting better. Today, clean lines, natural materials and geometric shapes coalesce with warm and fresh pastel colours. It's also about how cosy furniture, sophisticated accessories and well-thought out wall and ceiling finishes create for a modern ambience that at the same time radiates

warmth.

## **DESIGN AND COMFORT**

Snuggly fabrics and sturdy materials have the upper hand in the new Scandinavian design. Pastel-coloured velvet, a carpet you can deliciously let your feet sink into, or a soft leather seat: the more comfort it exudes, the better.

← Terrazzo Pink  
↓ Lacquered White

## PEACHY PINK

In Scandinavian style 2.0, pastels and light woods lead the way. A few bright accents will complete your Scandinavian look. For example, opt for wall panels in Terrazzo Blue. The result is a play between soft and industrial, futuristic and nostalgic with both a feminine and a masculine aesthetic. Is your preference for something a little more traditional? If so, select a peachy pink or white finish for your wall panels.

↓ Creamy Ash

**maestro**  
PANEL

# ECLECTIC EXTRAVAGANZA

CREATE YOUR OWN ROMANTIC STYLE

Enjoy an interior full of personality. Romantic interiors evoke mystery without divulging their secrets right away. Eclectic furnishes spaces in layers that have to be discovered one by one. Dark colours and unique objects provide a hint of cosiness and nostalgia.

# BLACK MAGIC BRIMMING WITH MYSTERY

**A** dark interior is exciting, charming, chic and mysterious. Taking a step into the dark side takes some courage, but it pays off. Start out cautiously or immediately throw yourself head-in.

## **DARK BEAUTY**

Rich, deep colours with a natural soft satin sheen. That is the power of contemporary dark interior design. Elitist and glamorous, without breaking the bank. Blue and metallic colours, brown and burgundy, magical plum and forest green. Choose the colours that reflect your personality.

↓ Ebony Walnut

**maestro**  
PANEL

“  
THE RICH, DEEP COLOURS  
RADIATE A NATURAL, SOFT  
SATIN SHEEN: ELITIST AND  
GLAMOROUS, WITHOUT  
BREAKING THE BANK.  
”

**OPTICAL ILLUSIONS**

Make a large room more intimate without sacrificing space. Thanks to dark ceiling panels - with or without ornamentation or texture - a sense of closeness and an extra cosy feeling are created. Soft materials such as velvet or faded fabrics (on your wall as well) also add cosiness and personality.

↓ Matte Black

**maestro**  
PANEL

## A PERSONAL PAST

The charm of dark interiors traces back to the Middle Ages and the Romantic era. The style combines vintage materials and crafts with new technology. For example, complement your dark interior with personal effects. In this way your home becomes a true journey of exploration for every visitor.

# CALM

## ZENTERIOR

### ZEN IN THE CITY

Interiors inspired by Calm are permeated with a calm mellowness that derives from living in harmony with nature. Natural materials full of texture have a high wabi-sabi quality: inspired by far-off Japan, they illustrate the beauty of imperfection.

# 4 TIPS

## NATURAL PEACE AT HOME

### 4 TIPS FOR A PEACEFUL INTERIOR

A hectic day at work, a traffic jam on the way home, a quick stop by the shop: isn't it wonderful to come home to peace and calm after the daily hustle and bustle? With these tips, you can easily bring nature into your home.

#### 1 PLANT A TREE

Bring nature into your home, something you can take quite literally. With a wall full of hanging plants, an indoor garden or a bright patio with a stately tree, the boundary between the outside and the inside fades away. The abundant presence of plants provides a sense of calm and promotes concentration.

↓ Raw Concrete

also discover lynes, the wall and ceiling system with integrated lighting

#### COLOURS

Nature has a wide colour palette to draw from. Blue shades for water, green for botanical, grey and brown for earth and stone, yellow for sand and sun, and red for the volcanic and fire. These shades bring a natural ambience to the home. In addition, choose familiar, raw materials: leather, wicker, bamboo, natural stone, wood, wool and silk are all classics.

#### 2 USE NATURAL MATERIALS AND

### 3 BRING NATURE INTO YOUR INTERIOR

Aside from plants and trees, there are countless other ways to bring greenery into your home. You can find nature in all kinds of materials, prints, textures and colours. From natural decorations such as animal hides, soft-haired pillows and wicker to a table in characterful teak or elements with a floral print.

Concrete is versatile, pure and robust. Concrete's texture adds a perfectly imperfect element and creates a kind of vulnerability. The unprocessed structures and porous surfaces fit perfectly into the Japanese wabi-sabi philosophy, where a little bit of imperfection in our interior is fully embraced and accentuated.

# COUNTRY WITH A GROOVE

**O**f course you adore the cosiness of a country interior. Nothing says that so clearly as decorative wall panels with a deep groove.

↓ Aqua Green

## NATURAL COLOURS

Contemporary country styles like to employ natural colours. Light intermediate hues with a faded touch. Choose colours that reflect peace and quiet. For example, combine green and blue, or go for purple and blue. Natural colours give you the opportunity to escape the daily hustle and bustle. Nothing is set, and anything goes. The digital world makes place for a quiet environment.

↓ Eggshell Grey

**maestro**  
PANEL

### YOUR OWN VINTAGE DESIGN

Light colours, comfortable materials and soft fabrics. Country stands for warmth and affection on every level. Downy wool, nostalgic linen: everything is possible. A country style calls for a mishmash of furniture and decorations. With a lick of paint, you can transform a second-hand piece of furniture into a stylish trendsetter.

Tip

### COTTAGE VERSUS COUNTRY

Cottage takes its inspiration from English country houses. Attention to detail and decorative mouldings create a romantic interior that is as playful as it is refreshing. The English style combines perfectly with a country interior. The attention to decoration, the delicate accents, such as wall panelling with a deep groove and other airy accents make for an inviting home tailored to your life and your family.

# WARM BOHOMODERN

## ARTISAN BEAUTY

Tasteful, artistically decorated rooms full of natural materials with a retro-modern touch create a sensual warmth. Objects in these interiors have the flair of traditional handmade crafts. The cultural influences of Latin America provide a particularly warm colour palette centred around nature and earth tones.

# WAKM MIGHTY MEXICAN

**M**exico. Mexiíco. The ‘Singer Without Name’ knew it well: Mexico is hot. Not only the radiant sun, tortillas and tequila help you to drift off to exotic destinations. Cactuses and colourful carpets also give you the urge to explore the world. And that’s exactly what you can use to bring an original twist to your interior.

↓ Terracotta Red

maestro  
PANEL

Need for a space that lets you dream about exotic destinations, and that is bubbling with positive energy? Then this style is a must!

↑ Freckled Terrazzo

## FLORAL FRIDA

One of the great icons of Mexican culture is without a doubt Frida Kahlo. She is known for her surrealistic paintings, dramatic tram accident and her free-spirited life. Kahlo was praised for her stylish clothes full of vivid colours and Mexican symbolism. She often wore flowers

in her hair, which you can also see in her paintings. Her style is everything you would expect from a warm interior, with endless possibilities of variation and tailored to the seasons.

### TIMELESS TERRACOTTA

Artisan techniques, hints of nature and earth tones are the hallmarks of this interior. Add a touch of Latin America, and you end up with terracotta. Ceramics with the typical ruddy-brown colour match perfectly with the Mexican trends and the warm interior you have in mind. As a decorative element on your wooden table or as an accessory on a sideboard, you can find terracotta in all shapes and sizes. Group them in threes for a balanced result.

### SKULLS AND ROSES

The last stop during our trip through Mexico: the typical skulls and roses. You regularly see them in retro tattoos, and they contribute to your styling and your interior design. Subtle accents or an enormous eye-catcher? Bring a piece of South America into your home and give your home a unique edge. Naturally, fresh roses are always a welcome touch. They instantaneously brighten up a room. Breathe in the perfume of fresh flowers, Mexico and especially your own homeliness.

Tip

# 4 TIPS FOR A WARM INTERIOR

## 4 TIPS FOR A WARM INTERIOR

Do you also feel like wrapping yourself up in cosy homeliness and a warm interior? With these four tips, simply set to work for a quick result.

↳ Brown Walnut

↳ Purple Thistle

### 1 CHEERFUL COLOURS

A warm interior starts with warm colours. Orange, red, yellow or ruddy-brown are recommended. However, opulent, dark colours also create a cosy ambience, for your walls as well as your furniture and accessories.

Soft means cosy. Lilac shades make their appearance in your interior and let you forget dark days. Colour on your pillows or carpet? Get warm spontaneously.

### 2 SNUGGLY TEXTILES

“  
FLOWERS ARE PERFECT IN A WARM INTERIOR,  
WITH INFINITE VARIETY POSSIBILITIES AND  
TAILORED TO THE SEASONS.  
”

3 NATURAL MATERIALS AND  
ACCESSORIES

Wood, wicker, wool and flowers are indispensable elements for a warm interior. Natural materials give a homely feeling, even in your decorations.

4 LIGHT AND FRAGRANCE

Nothing is as cosy as the flickering flame of a candle. Choose a relaxing scent for your ultimate Zen moment.  
Warmly recommended!

# EXPERIENCE WELLNESS IN YOUR OWN HOME

**MOISTURE-PROOF PANELS  
FOR KITCHEN AND BATHROOM**

Make your bathroom a space to enjoy yourself in. Wake up in the morning, relax blissfully in the evening; enjoy every moment in your own home spa.

PANEL

**A NEW STANDARD IN THE BATHROOM**

Impervious to moisture, 100 percent hygienic and pleasing to the eye. The moisture-resistant wall panels transform every wet room into a place exquisite to dwell in. The unique foil and moisture-resistant MDF turn your bathroom into an oasis of peace and warmth.

“

**A WONDERFULLY SMOOTH FINISH,  
A SOFT STRUCTURE OR THE VISIBLE  
GRAIN OF NATURAL WOOD.  
THE MOISTURE-RESISTANT PANELS  
EXIST IN MANY DIFFERENT FINISHES.**

”

↓ Uni White

**maestro**  
PANEL

## YOUR OWN STYLE

A wonderfully smooth finish, a soft structure, the visible grain of natural wood or luxurious veins of marble. The panels are available in several different finishes. Go for texture, a natural look or a sleek contemporary whole with marble accents. With over 20 different designs and three different sizes, you will find the waterproof wall or ceiling panel just right for you.

↓ White Marble

to be recognised  
by the novno icon.

**NOVO**

# WATERWALL

## THE WONDERFUL WORLD OF WATERWALL

### WATER-RESISTANT SHOWER PANELS

WaterWall is a handsome collection of wall panels for use in wet spaces: from shower to bathroom, and entirely seamless. This makes the panels completely washable, scratch-resistant and entirely hygienic. WaterWall makes life easier and your bathroom more beautiful.

### FROM TILE TO CONCRETE

Do you like large or small tile effects in your bathroom or the shower? Or do you prefer the classic look of natural stone? WaterWall offers you total freedom with designs that reflect every style: from a contemporary concrete look to tactile textures. That way, you have even more choice to give shape to your own oasis.

### EASY TO INSTALL

Why make things difficult for yourself when there is an easy option? Thanks to the unique installation system of WaterWall, you save time and effort. The handy click system is easy to use and 100 percent effective, even if you install it on your own. Do you want to glue the wall panels? That's possible as well, even without removing the existing tiles. Say goodbye to all the destruction and mess. Say hello to WaterWall.

# STORIES

## AN INSTALLER WITH A MISSION

“

**THE QUICK INSTALLATION MAKES IT  
PLEASANT FOR ME, BUT ESPECIALLY FOR  
MY CUSTOMERS BECAUSE IT SAVES THEM  
TIME AND MONEY.**

”

**F**or a professional, three things are important: quality, speed of installation and service. It's no coincidence that these are the three reasons why Jasper Van Brabant often opts to go with Maestro. As an independent plumber, he does everything he can to prove his reputation time and again.

From the installation of sanitary facilities to complete bathroom renovations: Jasper Van Brabant, a plumber from Ypres, is happy to take care of it. Hailing from idyllic Voormezele, he is on the go every day to make the life of his customers as pleasant and easy as possible. That's why he offers a complete package for an entirely new bathroom, from removing the existing decor to selecting and installing all of the units and interior finishes..

“My customers love quality that is beautiful and stands the test of time. That's why I often suggest Maestro as a finish for walls and ceilings. On top of that, it's easy to install. That's great for me, but certainly also for my customers, because the time saved really reduces the working hours. That means money that they can spend on other things.”

According to Jasper, one of the major reasons why installing Maestro wall and ceiling panels goes so smoothly is the fact that the surface does not have to be levelled. “Even on an uneven surface, the panels can be installed so that they are perfectly level. The only preparation needed is a wooden framework.

**SAVING TIME AND MONEY**

# “ I LOVE THE PRACTICAL SOLUTIONS THAT MAESTRO OFFERS. ”

In case of walls that come into direct contact with water, such as showers, I resolutely opt for Maestro's Waterwall. An additional plus here is that you can simply glue the panels to the wall. “

## INSPIRATIONAL OPTIONS

Practicality is one thing, but the look also obviously determines the customer's choice. “That's when the Maestro sample box really comes in handy. There is always a sample in my van.” The sample box is exactly what the name suggests: an inviting collection of decorative samples with every possible version of the Maestro collection. “In a single glance, I can demonstrate what the options are. This makes it easy for the customer to choose from among the extensive collection of designs. What's more, the samples are detachable. That lets us place the colour or the design directly next to the existing interior.”

# LONG LIVE PANELLING

## HOW A WALL PANEL BRINGS YOUR ROOM TO LIFE

Tasteful country or surprisingly contemporary: with stylish panelling, you can give your interior the touch you have in mind. Whether you employ optical illusion to enlarge your space, hide an unfinished wall or add extra ambience, the large selection of form, size and finish gives you a myriad of possibilities.

## GETTING CREATIVE WITH COLOUR

The Lambris wall panels can be painted over without any problem. In that way, you can match the colour of your panelling exactly to the shade of your interior. Tip: do you have a high ceiling? High, dark panelling makes your space homely and intimate. Do you want your living room to look bigger and lighter? Go for a light colour that matches your (white) floor perfectly.

Tip

### SUBTLE DECORATION

Your wall panel is never complete without a cornice and skirting, and why wouldn't that be true? That's because the finish gives you even more scope to express yourself. In addition, they create space for small accessories and ornamentation. For example, choose a wide border that gives you the freedom to add subtle ornamentation.

Tip

# BENEFITS OF THE MASTER

## EASY TO MAINTAIN

All Maestro wall and ceiling panels can easily be cleaned with a slightly damp cloth. The waterproof collection has a special water repellent coating.

All Maestro wall and ceiling panels are heat and UV resistant. This way they can retain their original look for years.

## NICELY FINISHED

Maestro offers a total solution for the decoration of your space. For a perfect finish, you will find matching and easy to install profiles in each collection : skirtings, ceiling mouldings, with and without rails, flexible mouldings, and other accessories.

## EASY INSTALLATION

Professional or do-it-yourselfer. Thanks to the unique tongue and groove system, Maestro panels are very easy to install by yourself. Removing the covering later on? That too is done in no time. Discover all the qualities and get inspired by a range of colors and designs for your new construction or renovation project that will turn every place into your favorite spot.

IT CLICKS WITH MAESTRO

While clicking the Maestro ceiling and wall panels together, a subtle groove is created. Thanks to the minimal bevel on the sides, this looks almost seamless.

IN THE SPOTLIGHTS

Installing spot lights in a Maestro ceiling? No problem! Thanks to the durable adhesive bonding, the panels can resist heat up to 110 °C.

Maestro offers a solution for your entire home, even the bathroom. The WaterWall collection is specially designed for humid spaces. These wall panels are finished with an extra water repellent coating. Thanks to the lack of real joints, the panels are perfectly hygienic. And they are of course very easy to install thanks to the convenient click-system. Like the panels for humid spaces, they are proof of our constant search for innovation and improvement in product development. Choose from our tasteful designs and tile motifs.

In bathrooms and kitchens it is essential that you use materials that are moisture-resistant. Thanks to the impenetrable foil and the moisture-resistant MDF, these panels are perfectly suited for this.

TECHSPECS

- A basis of MDF covered with a high quality foil.
- Tongue and groove system makes blind nailing possible.
- Micro bevel on the long and the short sides almost looks seamless.
- The subtle groove between the panels creates a stylish effect.

Maestro Panel has ceiling panels in four different sizes and in 45 designs. The panels are ready-to-use, and thanks to their tongue and groove connection they are easy to install yourself.

New: longer ceiling panels of 170cm that make your room look bigger.

100 percent hygienic and pleasing to the eye, the humid resistant ceiling panels transform every wet room into a pleasant place. The unique foil and moisture resistant MDF turn your bathroom into an oasis of peace and warmth.

ceiling moulding:  
see page 59

The Maestro assortment offers a wide range of wall panels in 5 different widths, with a varied palette of no less than 62 designs ranging from wood to marble and concrete. The panels can be installed very easily and are washable. In addition, they are floor-to-ceiling, to avoid joints on the ends.

100 percent hygienic and pleasing to the eye, the humid resistant wall panels transform every wet room into a pleasant place. The unique foil and moisture-resistant MDF turn your bathroom into an oasis of peace and warmth.

INSTALLATION METHOD

## FINISHING

**end profile alu**  
7,4 x 13,4 x 18 x 2700 mm  
1 pc/pack  
ref 500960

For a waterproof finish on the edge of your shower panels.

**inner corner profile alu**  
10,8 x 16 x 2700 mm  
1 pc/pack  
ref 500958

**outer corner profile alu**  
10,8 x 20 x 2700 mm  
1 pc/pack  
ref 500959

**L-finishing profile alu**  
10,8 x 18 x 2400 mm  
1 pc/pack  
ref 501260

For a waterproof finish on the edge of your shower panels.

**skirting profile alu**  
10,2 x 35 x 2400 mm  
1 pc/pack  
ref 500661

For a waterproof finish between panel and floor.

**panseal kit**  
2 PVC profiles:  
25 x 35,5 x 1820 mm  
Silicone kit and mitre box  
ref 500660

For a perfect drainage between panel and shower or bath.

**push block**  
To use with the two-part inner corner profile.  
1 pc/pack  
ref 501262

# 4 LAMBRIS

## 1 panels

The Lambris panels have a standard height of 120 cm and are therefore ready to be installed.

## 2 installation kit

The installation kit consists of a base and 3 fixing slats. The kit serves as a basis for attaching the paneling.

## 3 cornice

Finishes the top of your paneling neatless.

## 4 skirting cottage

Finishes the bottom of your paneling neatly and simply clicks into the mounting socket.

## finishing block

This block serves as a starting profile if the paneling starts in the middle of the wall instead of between two walls.

## flexible moulding

The flexible moulding can be folded in two directions and neatly finishes an inside or outside corner.
